

WHY STUDY FRENCH ?

FRENCH at the North Green School, why not?

We want to acquaint the pupils with French, as a modern language, to increase their chances of finding a job both abroad and at home. We hope to expose our learners to expressions related to law, food, art, music, dance, cinema, literature, politics, architecture, fashion and diplomacy. As the young-stars plan their future, French can lead to fulfilling their careers in many fields: Environmental issues, manufacturing, finance, education, science, journalism, advertising, telecommunications, tourism and hospitality. We are ambitious that our pupils will be in position to get connected to the Francophone world through e-mail correspondences, travel or study experiences. Finally, as a career asset, the ability to speak French could enable your child, to benefit working with international agencies like the International Red Cross, UNESCO, The World Health Organization, The International Olympic Committee among others.

Ms. Milly Namatovu

CHESS IS GOOD FOR YOUR IQ

Primary School

Secondary School

Message from the Primary Head

Mr. Moses M. Kawuma

We are readers.

Continued from last week

4. Encourage a wide variety of reading activities.

Make reading an integral part of your children's lives. Have them read menus, roadside signs, game directions, weather reports, movie time listings, and other practical everyday information. Also, make sure they always have something to read in their spare time when they could be waiting for appointments or riding in a car.

5. Look for reading problems.

Find out if your children can sound out words, know sight words, use context to identify unknown words, and clearly understand what they read.

6. Get help promptly for reading problems.

Reading problems do not magically disappear with time. The earlier children receive help, the more likely they will become good readers.

Message from the Secondary Head

Mrs. Sophie N. Bamwoyeraki

Greetings in the Lord's name. We give thanks for the rains and the cool temperatures. We give thanks for all the blessings.

In the secondary school it has all been about examinations for the end of term. We have learnt a lot about taking examinations, revision and using our time well. Taking examinations improves with time as candidates learn from their previous mistakes. Examinations are never easier whether at University level or Key Stage 3. All that is required is for the pupils to learn to use time properly as they are covering topics during lesson times. We would like to encourage all the learners to develop better study habits. We are not teaching for examinations but we use examinations in our assessment process to guide in content coverage as well as pupil achievement. We are empowering the learners so as to get them ready for such activities and we cover most of such skills in Learning to Learn lessons. We would like to encourage our learners to be studious and practical with what they learn so that they can apply what they learn in their lives.

Besides examinations, we are back to our normal routine and rehearsals are going on for the **Christmas concert**. Remember to clear the evening of **13th December 2017** to be with us. Looking forward to seeing you all.

Ever wondered how your child earns a house point or even becomes Star of the week?

Well, here is a list of some of the must dos

- Acts of kindness to others
- Respect for others and property
- Dressing smartly in full uniform
- Completing homework before time
- Greeting all adults and peers in the right manner
- Helping others to solve classwork problems
- Good time management
- Performing well in academics
- Good discipline
- Overcoming challenges

The List is endless, but also in other avenues of life your child is not only appreciated for their IQ in academics, but are appreciated for the other aspects on the list and many more.

Play Chess!

- It can raise your IQ
- It helps prevent Alzheimer's
- It exercises both sides of the brain
- It increases your creativity
- It improves your memory
- It increases problem-solving skills
- It improves reading skills
- It improves concentration
- It grows dendrites(nerve cells)
- It teaches planning and foresight

DID YOU KNOW?

Venus

Venus is the only planet in the solar system that rotates clockwise, whereas all other planets rotate anti-clock wise.

Rabbits and Parrots

Did you know that rabbits and parrots can see what is behind them without turning their heads.

End of term assessment is ongoing. These assessments are to inform the teacher about the progress made by the child and the areas that will need improvement. After the assessments, teachers will be busy writing reports as we come to the conclusion of the term.

We would like to thank all of you who are constantly giving us feedback on our newsletter. We appreciate every input and effort towards improving **The North Green Leaf**.

Guiding Scripture for the Week

PRAYER

"Do not be anxious about anything, but in everything, by prayer and petition, with thanksgiving, present your requests to God."

Philippians 4:6

You're never smart till you wear a smile

House Points

1. Fire 693
2. Wind 688
3. Earth 574
4. Water 652

Week 13 Scripture Memory Verse

1 Chronicles 16:8-10

Oh, give thanks to the Lord! Call upon His name; Make known His deeds among the peoples! Sing to Him, sing psalms to Him; Talk of all His wondrous works! Glory in His holy name; Let the hearts of those rejoice who seek the Lord!

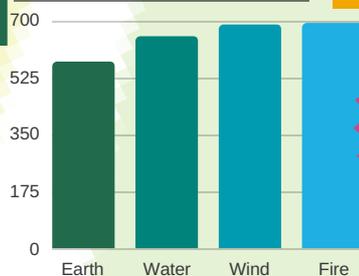

Memory Verse Champions

Examination took priority
